SUPPLEMENT TO
REPORT NO.

Deliveries to be made by Walzwerk fuer Buntmetalle (rolling mill for nonferrous metals) at Hettstedt to "Elektrim" in Warsaw between September 1953 and February 1954 included 50 tons of copper wire with a diameter of 0.65 to 2.30 mm; 50 tons of aluminum wire having a diameter of 1.2 to 2.3 mm; and 2 tons of so-called "AlCu" wire and "AlCu" cables having diameters of 1.25 to 2.25 mm, 6 mm, 10 mm, and 16 mm. 1 and [redacted] The total value of the deliveries amounted to 754,844.39 rub. The rolling mill in Hettstedt received the raw materials required for the fulfillment of the export orders mentioned from Hungary and Austria. Aluminum of 99.5 percent was delivered by Hungary, and copper from Austria. Since mid-December 1953, a newly developed aluminum soft solder has been produced at the Hettstedt rolling mill.

1. Comment. The "Elektrik" agency is located at 32 Sienna in Warsaw.
2. Comment. Information on the 1953 output of the rolling mill for non-ferrous metals at Hettstedt and its scheduled 1954 output was transmitted previously. In 1954 the Hettstedt rolling mill is scheduled to manufacture, among other products, 16,000 tons of rolled copper products and 10,500 tons of rolled products of aluminum and various alloys.
